Specifications	
Camera Module No.	JAL-KR6-OV2710 V3.0
Resolution	2MP
Image Sensor	OV2710
Sensor Type	1/2.7"
Pixel Size	3.0 um x 3.0 um
EFL	3.40 mm
F.NO	2.50
Pixel	1920 x 1080
WiewAnglaiLapTech.com	
Lens Dimensions	13.70 x 13.70 x 22.52 mm
Module Size	47.85 x 22.00 mm
Module Type	Fixed Focus
Interface	DVP Parallel
Auto Focus VCM Driver IC	None
Lens Model	KLT-LENS-MJ7007B
Lens Type	650nm IR Cut
Operating Temperature	-30°C to +85°C
Mating Connector	FH12A-24S-0.5SH

The product information in this catalog is for reference only. Please request the Engineering Drawing for the most current and accurate design information. All non-RoHS products have been discontinued, or will be discontinued soon. Please check the products status on the Hirose website RoHS search at www.hirose-connectors.com, or contact your Hirose sales representative.

0.5mm and 1mm Pitch Connectors For FPC/FFC

FH12 Series

Features

1. Ease of Use and Space Savings

Only one finger or 6.9N (Newtons) of force is required to lock Hirose's rotational actuator (flip-lock) as compared to using 2 fingers and 39.2N to close a FFC/FPC connector from our competition.

The Flip-Lock design also allows customers to place 2 or more connectors side by side as there is no need to waste additional board space for a side latch.

2. Strengthened Flip-lock Actuator

The standard Flip-Lock requires only 2.0mm height above the board. A strengthened lock lever is available which only requires an additional 0.4mm.

3. Supports Thin FPC (0.18mm)

Hirose does not require double-sided FPC to have any additional strengthening plate or stiffener and can therefore support a thickness of as little as 0.18mm +/- 0.05.

4. Hirose Ensures Reliability

Hirose's patented half tuning fork contacts maintain the required normal force without relying on the connector housing. With our competitor's conventional products the housing walls support the contact force, which does not provide for long-term reliability.

5. Prevention of Solder Bridge

Excess solder cavity absorbs excessive solder and avoids solder bridging.

6. Three different assembly types

FH12 is offered in Top & Bottom Contact and Vertical Mount and offered in both a 0.5mm contact pitch as well as a 1.0mm contact pitch (bottom contact only).

Applications

Notebook computers, printers, PDAs, digital cameras and other compact devices for interconnecting the main circuit board with the LCD, HDD or other device.

6 **HS**

Note 1 : Embossed tape reel packaging (2,000 pieces/reel). Order by number of reels.

Note 2: The design is such that the FPC/FFC protrudes on an upward angle so that other parts can be mounted beneath the PFC/FFC. In view of this, please take note of the gap at the top surface of the connector.

OV2710-1E full HD (1080p) product brief

OmniVision's True 1080p High Definition (HD) Video Image Sensor

The OV2710 JE is a treefult HD (1080p) CMOS image sensor designed specifically to deliver high-end HD video to digital video camcorders, notebooks, PC webcam, security and other mobile applications. The 1/2.7-inch OV2710-1E addresses the fast growing demand for affordable, HD-quality digital video solutions for video conferencing and recording.

The OV2710-1E is among the very first no-compromise full HD (1080p) sensors available on the market, meaning it offers HD video format with a display resolution of 1920 x 1080 pixels, operating at 30 frames per second. Built with OmniVision's proprietary 3 µm OmniPixel3-HS[™] high sensitivity pixel technology, the OV2710-1E delivers low-light sensitivity of 3700 mV/lux-sec, S/N ratio of 40 dB, and

The OV2710-1E is a true full HD (1080p) CMOS image sensor designed specifically to deliver high-end HD video to digital video camcorders, notebooks, over a light to nearly complete darkness below 15 lux.

> The OV2710-1E supports multiple platform architectures and controllers with both parallel and MIPI interfaces. By allowing system designers to leverage the same opto-electrical design across various products and multiple market segments, the OV2710-1E significantly reduces product development time. OmniVision's OmniPixel3-HS pixel technology has already been proven in high quality webcam/video applications and is now available in 1080p full HD in the OV2710-1E.

Find out more at www.ovt.com.

Applications

- Notebooks
- PC Webcams
- Camcorders
- Security
- **Product Features**
- programmable controls: gain, exposure, support for one lane MIPI interface frame rate, image size, horizontal mirror, vertical flip, cropping, windowing, and panning
- automatic image control functions: automatic exposure (AEC) - automatic gain control (AGC) - automatic white balance (AWB) rautomatic black level al a
- serial camera control bus (SCCB)
- lens correction (LENC)
- defect pixel correction (DPC)
- support for digital video port (DVP) parallel output interface
- integrated auto focus filter

- (up to 800 Mbps)
- support for 8-/10-bit RAW RGB output format
- support for image sizes: - 1080p at 30 fps - cropped 720p at 60 fps - VG4at 120 pat 60 fps - support for black sun cancellation

Digital Still Cameras

Portable Media Players

Telepresence

- embedded one-time programmable (OTP) memory
- on-chip phase lock loop (PLL)
- built-in 1.5V regulator for core

OV02710-A68A-1E (color, lead-free, 68-pin CSP3)

Product Specifications

- active array size: 1920 × 1080
- power supply:
 analog: 3.0 3.6V (3.3V typical)
 core: 1.425 1.575V (1.5V typical) - I/O: 1.7 - 3.6V (1.8V typical)
- power requirements: active: 350 mW
- power down: 70 uA
- temperature range:
 operating: -30°C to +85°C junction temperature
- stable image: 0°C to +65°C junction temperature
- output interfaces: 10-bit parallel/ one lane MIPI
- output formats: 10-bit RAW RGB
- lens size: 1/2.7"
- lens chief ray angle: 23.6°
- input clock frequency: 6 27 MHz

- scan mode: progressive maximum image transfer rate:
- 1080p: 30 fps
- 1080p: 30 Tps cropped 720p: 60 fps VGA: 120 fps OVA: 240 fps OVA: 240 fps sensitivity: 3700 mV/lux-sec
- shutter: rolling
- max S/N ratio: 40 dB
- dynamic range: 69 dB @ 8x gain
- maximum exposure interval: 1096 tline
- pixel size: 3 µm x 3 µm
- dark current: 20 mV/sec @ 60°C junction temperature
- image area: 5856 µm x 3276 µm
- package dimensions: 7465 µm x 5865 µm

Company Kai Lap Technologies (KLT)

Kai Lap Technologies Group Limited. (KLT) was established in 2009, a next-generation technology driven manufacturer specialized in research, design, and produce of audio and video products. KLT is occupying 20,000 square feet automated plants with 100 employees of annual throughput 30,000,000 units cameras.

KLT provides OEM, ODM design, contract manufacturing, and builds the camera products. You may provide the requirements to us, even with a hand draft, our sales and engineering work together to meet your needs. We consider ourselves your last-term partner in developing practical and innovative solutions.

Our team covers everything from initial concept development to mass produced product. KLT specializes in customized camera design, raw material, electronic engineering, firmware/software development, product testing, and packing design. Our experienced strategic supply systems offer a robust and dependable manufacturing capacity for orders of various sizes.

Limited Warranty

KLT provides the following limited warranty if you purchased the Product(s) directly from KLT company or from KLT's website, <u>www.KaiLapTech.com</u>. Product(s) purchased from other sellers or sources are not covered by this Limited Warranty. KLT guarantees that the Product(s) will be free from defects in materials and workmanship under normal use for a period of one (1) year from the date you receive the product ("Warranty Period").

For all **Product(s)** that contain or develop material defects in materials/on/workmanship during the Warranty Period, KLT will, at its sole option, either: (i) repair the Product(s); (ii) replace the Product(s) with a new or refurbished Product(s) (replacement Product(s) being of identical model or functional equivalent); or (iii) provide you a refund of the price you paid for the Product(s).

This Limited Warranty of KLT is solely limited to repair and/or replacement on the terms set forth above. KLT is not reliable or responsible for any subsequential events.
